

A sight to see,
An asteroid floating blankly,
Sifting through the eternal whiteness,
“Lucy” shining across its surface.

Contained in the asteroid,
Words and symbols that represent it;
“4 billion, Trojan, Kuiper belt”.
Diagrams of the asteroids moving.

Two thick black lines are clearly seen,
Standing out against the scenery.
On it, steps to show evolution;
Space and humankind alike.

Both extending outwards,
Reaching for new developments,
Showing how much Earth can achieve,
And showing how far we’ve come.
